Kuala Lumpur, Wilayah
Persekutuan Kuala Lumpur

Welcome Message by Ms. Michelle Jane

Our progressive program focuses on building practical skills through holistic learning.

The time has come to make that all-important decision, 'what school should I choose for my child'. The real answer to that, is the one that they are happiest in. When we have happy children, learning comes naturally. The 21st-century workplace is intriguing, exciting, and challenging, in its ever-changing nature. Therefore, we must best prepare our students for that environment. We aim to challenge them academically and intellectually to achieve the best possible grades that will assist them in obtaining their offers for universities, and ensure that they thrive at university and beyond.

More than being academically excellent, we want them to be academically curious and embrace all the opportunities available to them, both inside and outside of the classroom. Therefore, our founding values continue to underpin what we offer. When our students finally step out into the 'real world', they "can create rewarding lives, successful careers and make their mark on society". Over the course of their education, especially during the IGCSE program, we want them to develop the Crucial Skills that will help them to do this. Our teachers are dedicated to ensuring each individual child strives to do their best, supporting them and guiding them throughout their years with us.

I very much look forward to meeting you and your children, as we look to pave the way for their futures.

Kind regards,

Ms. Michelle Jane
School Principal

OUR SCHOOL

Since opening in 1985, Sayfol has established a reputation for being a leading academic institution offering a quality education based on the English National Curriculum to students from over 60 countries worldwide.

Our team of committed and experienced teachers provides a holistic all-around education based on the premise that teaching our students how to learn is as important as teaching them what to learn. We not only emphasize strong academic excellence but also the further enhancement of our student's skills in the performing arts, technology, communication, critical and creative thinking, collaboration and citizenship.

Our classes range from Early Learners in Kindergarten up to International A-Level (IAL) in Year 13. We currently prepare our students to sit for the International GCSE from two main boards; Cambridge Assessment International Education and Pearson Edexcel. Our A-Level Programme follows the Pearson Edexcel Board. These Boards offer qualifications that are internationally recognized and accepted by colleges and universities around the world and as such prepare our students for an excellent and well-rounded future.

OUR VISION

We strive to
nurture creativity,
confidence,
independent
thinking, academic
excellence and
enthusiasm for
life

At Sayfol, we are committed to encouraging our students to reach their maximum potential in a diverse environment of intercultural understanding.

Our goal is for our students to leave us as principled global citizens, who are ready to face the challenges of a rapidly changing world, and who are committed to making a contribution to the communities in which they live, both as leaders and team players.

OUR MISSION

We promise to develop our students intellectually, emotionally, socially, creatively, morally and physically in order to become responsible, tolerant, discerning, confident and competitive citizens in a demanding and challenging world.

Moreover, by providing our students with the relevant opportunities to expand their horizons both intellectually and socially, athletically and creatively, we strive to nurture a community of lifelong learners who are ambitious about what they can achieve both in and out of the class. We foster confidence, curiosity and independence, encourage responsibility, honesty, pride and passion, and promote determination, innovation, kindness and consideration in our learners. Our aim is for them not only to learn but to lead and to make a difference.

Our mission
is to unlock the
potential of every
student who
embarks on this
Sayfolian journey

KINDERGARTEN

At Sayfol Kindergarten, we believe that learning for our children happens when knowledge and its application excite them. We want our children to develop a sense of self and become inspired and independent little people who are ready to offer their opinions and ask their own questions. The fun and playful learning approach offered by the IEYC (International Early Years Curriculum) not only encourage our learners to enjoy their learning in a holistic way but also enables them to reach those important education milestones.

At Sayfol Kindergarten, we aim to provide an environment that nurtures and promotes the development of our students' emotional, social, intellectual and physical skills. Our Early Years educators understand that starting Kindergarten can be a daunting prospect for our little ones, and work hard to support their understanding that going to school is like discovering a new world, but not one that is completely unfamiliar. They provide opportunities for learning that allow our learners to explore and make connections, and express their ideas in multiple ways.

With a view to providing a creative and stimulating environment for our children, we have implemented **the International Early Years Curriculum (IEYC)** to develop the needs of your children between the ages of 2.5 years old and 5 years old. The IEYC places your child at the heart of the curriculum and supports the key areas of their learning. Inquiry and play-based approaches encompass all areas of the curriculum, including personal, social and emotional development.

In effect, we ensure that learning is personalized and that the IEYC effectively 'wraps around the needs and interests of the child.

This flexible curriculum contains units of learning based on exciting themes. These units aim to capture children's natural curiosity, the force behind a hungry mind, as a starting point. They are designed to balance child-initiated learning and teacher-scaffolded in an enabling environment.

Through the **IEYC**, each child will have their own unique learning journey and develop the ability to:

- grow as an independent learner
- communicate clearly
- work collaboratively, embracing differences and showing respect, kindness and caring towards others and self
- think critically and creatively

Our Kindergarten classes are structured as follows:

Early Learners
(2.5 – 3 years old)
KG1 (3 – 4 years old)
KG2 (4 – 5 years old)

Our dedicated and experienced team of teachers in Primary School prepares our students for the future with a creative and problem-solving approach to learning that creates opportunity every day and inspires young minds. The support our students are given in a happy and wholesome environment fosters their growth as brave and confident learners.

We recognize that ongoing assessment and adjustment are key to improved performance. Our learners are provided with a solid education with a futuristic orientation; open-mindedness and critical thinking are encouraged in all aspects of the teaching and learning process.

The core subjects are taught by the classroom teachers, while Art, Music, ICT, Physical Education and Modern Foreign Languages are taught by teachers specializing in these subjects.

Since our aim is to foster the all-round development of our students, we also offer a broad range of co-curricular and extra-curricular activities. Our CCA and ECA Programmes are designed to give students opportunities to develop particular skills and allow them to explore a diverse range of interests. Activities we offer in Primary School vary each Term, according to the Academic Programme.

Key Stage 1: Year 1 & 2

Students between ages 5 – 7 often find themselves learning from first-hand experience and this is the stage where good learning habits and skills are nurtured. We focus on developing independent learners who are not only curious about the world around them but who are also motivated to explore and enquire. We want our children to think beyond the classroom and gain skills for the future.

Key Stage 2: Year 3 to 6

From Year 3 upwards, our emphasis is on the development of greater self-reliance in our learners.

We encourage them to grow as confident communicators and to be creative, resourceful and inquisitive. Our curriculum incorporates the following subjects: -

- English
- Mathematics
- Social Studies
- Science
- Information & Communication Technology
- Physical Education
- Music
- Art
- Global Perspectives

Foreign Language

- French
- Mandarin
- Hindi
- Bahasa Malaysia

Compulsory For Malaysian Students

- Bahasa Malaysia
- Local Studies
- Islamic Studies (Muslim)

Joining Secondary School is the start of an exciting journey from KS3 (Year 7) through to IGCSE and A-Level examinations, with both Cambridge Assessment International Examination (CAIE) and Pearson Edexcel. Throughout this educational experience, we are committed not only to pursuing academic excellence but also to giving our learners the opportunities to become the best version of themselves.

The Secondary School is equipped with a team of experienced teachers who support the development of 21st-century skills:

- Critical thinking
- Creativity
- Communication
- Collaboration
- Citizenship
- Connectivity

Each of these skills will give our students the tools they need to reach their potential now and in the near future.

Key Stage 3: Year 7 to 9

Our Lower Secondary preparatory program opens doors to 5 compulsory subjects. It focuses on giving students the opportunity to experience and gain knowledge before they decide which subjects to specialize in when they progress from KS3 to KS4.

Compulsory Subjects:

- First Language English OR English as a Second Language (ESL)
- Mathematics
- Integrated Science
- Physical Education
- Computer Studies (Year 7)
- Social Studies (Year 7 & 8)

Optional Subjects:

- Art & Design
- Music
- Language (French, Mandarin & Malay – compulsory for Malaysian students)
- Commerce
- Global Perspectives
- Information & Communication Technology (Year 8 & 9)
- Computer Science (Year 8 & 9)
- History (Year 9)
- Geography (Year 9)

UPPER SECONDARY

Advancing to Year 10 is a milestone not only for many students but for their parents too. Our learners embark on the IGCSE Programme in Year 10 when they are able to select their chosen subjects from a range of 18 offered. Included in their choices are Mathematics, English or English as a Second Language (ESL), which are compulsory.

COMPULSORY SUBJECTS

- English Language/English as a Second Language
- Mathematics
- Physical Education

The ESL Programme provides continuous English support for our Sayfolians. We also provide a variety of extracurricular activities (ECA) and co-curricular activities (CCA) that include languages, sports clubs and community outreach. Further academic guidance and career counselling are offered by our Head of Departments, Year Coordinators, administrators and our licensed students' counsellor.

Sayfol has maintained a 99% pass rate over the last 5 years and our Sayfolians have also been awarded the Pearson Academic Excellence Award for being the World's Highest Achievers in many subjects.

IGCSE SUBJECTS

- English Literature
- Additional Mathematics
- Accounting
- Biology
- Chemistry
- Physics
- Computer Science
- Information & Communication Technology
- Art & Design (Fine Arts)
- Business Studies
- Physical Education
- Commerce
- Economics
- Geography
- History
- Global Perspectives
- Malay Language
- Mandarin
- French
- Music
- Combined Science

A-LEVEL (IAL)

Sayfol offers an internationally recognized IAL program for Year 12 and 13 students. This 18-months Programme is geared toward the Pearson Edexcel International A-Level examinations.

Pearson Edexcel International A-Level is accredited by UK ENIC (UK National Information Centre for Global qualifications and skills), the national agency responsible for providing information and expert opinion on qualifications and skills worldwide. This program is also globally recognized in most of the top global universities where our students have successfully enrolled.

The Sayfol IAL intensive Programme is made up of 3 semesters. Our June intake for the IAL qualification for Academic Year 2023/2024 enables students to study in a collaborative environment that nurtures and prepares them for the next level of their tertiary education.

Guided by our experienced team of teachers, Sayfol has maintained an excellent academic record with our students being awarded the Pearson Academic Excellence Award for being the World's Highest Achievers.

Our small class sizes enable our students to be given quality attention and guidance. In addition to their chosen academic program, students are also encouraged to participate in community service to further develop soft skills which will be of benefit to them in the future.

A minimum of 3 IAL subjects and a maximum of 4 subjects is advised, as students also have the opportunity to do some non-IAL electives. Subjects offered in the IAL Programme are:

IAL Subjects

- Mathematics
- Further Pure Mathematics
- Biology
- Physics
- Psychology
- Accounting
- Business Studies
- Economics
- Chemistry
