Kindergarten & Reception

At Sayfol Kindergarten, we aim to provide an environment that nurtures and promotes the development of our students' emotional, social, intellectual and physical skills. Our Early Years educators understand that starting Kindergarten can be a daunting prospect for our little ones, and work hard to support their understanding that going to school is like discovering a new world, but not one that is completely unfamiliar. They provide learning opportunities that allow our learners to explore, make connections, and express their ideas in multiple ways.

To provide a creative and stimulating environment for our children, we have implemented the International Early Years Curriculum **(IEYC)** to meet the needs of your child between the ages of 2.5 and 5 years old. The IEYC places your child at the heart of the curriculum and supports the key areas of their learning. Inquiry and play-based approaches encompass all curriculum areas, including personal, social and emotional development. In effect, we ensure that learning is personalised and that the IEYC effectively wraps around the needs and interests of the child.

This flexible curriculum contains units of learning based on exciting themes. These units aim to capture children's natural curiosity, the force behind a hungry mind, as a starting point. They are designed to balance child-initiated learning and teacher-scaffolded learning in an enabling environment.

Through the IEYC, each child will have a unique learning journey and develop the ability to:

- grow as an independent learner
- communicate clearly
- work collaboratively, embracing differences and showing respect, kindness and caring towards others and self
- think critically and creatively

Our Programs

Kindergarten (2.5-4 years)
- Early literacy
- IEYC units
- Creative expression
- Motor development

Reception (4-5 years)
- Phonics
- Numeracy
- Project work
- ICT
- Language foundations
- Primary Year One-ready skills

Primary

Our dedicated and experienced team of teachers in Primary School prepare our students for the future with a creative and problem-solving approach to learning that creates opportunity every day and inspires young minds. The support our students are given in a happy and wholesome environment fosters their growth as brave and confident learners.

We recognise that ongoing assessment and adjustment are key to improved performance. Our learners are provided with a solid education with a futuristic orientation; open-mindedness and critical thinking are encouraged in all aspects of the teaching and learning process.

The core subjects are taught by the classroom teachers, while Art, Music, ICT, Physical Education and Modern Foreign Languages are taught by teachers specialising in these subjects.

We aim to foster the all-round development of our students, we also offer a broad range of co-curricular and extra-curricular activities. Our CCA and ECA programmes are designed to give students opportunities to develop particular skills and allow them to explore a diverse range of interests. Activities we offer in Primary School vary each term, according to the Academic Programme.

Key Stage 1: Year 1 & Year 2

Students between ages 5 - 7 often find themselves learning from first-hand experience and this is the stage where good learning habits and skills are nurtured. We focus on developing independent learners who are not only curious about the world around them but who are also motivated to explore and enquire. We want our children to think beyond the classroom and gain skills for the future.

Key Stage 2: Year 3 to Year 6

For students between the ages of 7-11, we emphasise developing greater self-reliance in our learners.

We encourage them to grow as confident communicators and to be creative, resourceful and inquisitive. Our curriculum incorporates the following subjects:

- English
- Mathematics
- Social Studies
- Science
- Information & Communication Technology
- Physical Education
- Music
- Art
- Global Perspectives

Foreign Language

- French
- Mandarin
- Hindi
- Bahasa Malaysia

Compulsory For Malaysian Students

- Bahasa Malaysia
- Local Studies
- Islamic Studies (Muslim)

Keystage 3

Joining Secondary School is the start of an exciting journey from KS3 (Year 7) through to IGCSE and A-Level examinations, with both Cambridge Assessment International Examination (CAIE) and Pearson Edexcel. Throughout this educational experience, we are committed not only to pursuing academic excellence but also to giving our learners the opportunities to become the best version of themselves.

The Secondary School is equipped with a team of experienced teachers who support the development of 21st-century skills:

- Critical thinking
- Creativity
- Communication
- Collaboration
- Citizenship
- Connectivity

Each of these skills will give our students the tools they need to reach their potential now and in the near future.

Key Stage 3: Year 7 to Year 9

Our Lower Secondary preparatory program opens doors to a set of compulsory subjects. It focuses on allowing students to experience and gain knowledge before they decide which subjects to specialise in when they progress from KS3 to KS4.

Accelerated English Program (AEP)

We provide AEP to help non-native speakers and help students with little or no English skills, depending on grade level *(Partial Immersion)*.

Compulsory Subjects:

- First Language English OR English as a Second Language (ESL)
- Mathematics
- Integrated Science
- Physical Education
- Computer Studies (Year 7)
- Social Studies (Year 7 & Year 8)
- PSHE (Year 7 - Year 9)

Optional Subjects:

- Art & Design
- Music
- Modern Language - French, Mandarin & Malay*
  compulsory for Malaysian students
- Commerce
- Global Perspectives
- Information & Communication Technology (Year 8 & Year 9)
- Computer Science (Year 8 & Year 9)
- History (Year 9)
- Geography (Year 9)

Keystage 4

Advancing to Year 10 is a milestone for many students. Our learners embark on the IGCSE Programme in Year 10 where they can select from a range of subjects offered. English/English as a Second Language (ESL), Mathematics and PE are compulsory subjects.

Sayfol has maintained a 99% pass rate over the last 5 years and our Sayfolians have also been awarded the Pearson Academic Excellence Award for being the Top Achievers in the region, country and the world in many subjects.

COMPULSORY SUBJECTS

- English Language/English as a Second Language
- Mathematics *(Core/Extended)*
- Physical Education
- Malay *(compulsory for Malaysian students)*

IGCSE SUBJECTS (6 elective subjects)

- English Literature
- Additional Mathematics
- Biology
- Chemistry
- Physics
- Combined Science
- Computer Science
- Information & Communication Technology
- Art & Design
- Music
- Business Studies
- Physical Education *(IGCSE PE)*
- Commerce
- Economics
- Accounting
- Geography
- History
- Global Perspectives
- Malay Language
- Mandarin
- French

A Level

Overview

The A-level course is an 18-month programme culminating in examinations in each subject to be sat in the January, May/June and October exam season. Students will sit the AS level examinations in the majority of their subjects in Semester 2 of Year 12. All Year 12 and Year 13 students will sit for mock examinations to ensure they are fully prepared for the external AS and A2 examinations. AS qualifications are useful for universities in making conditional offers as well as valuable feedback for students as to their progress at this level. Our students have received conditional offers in prestigious universities using AS results. Students who have completed 3 units in external examinations are eligible for an AS Certificate.

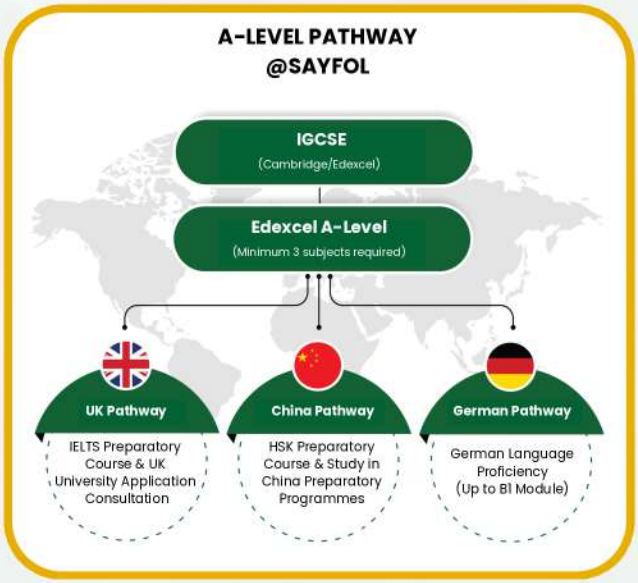
Subjects Offered

- Biology
- Physics
- Chemistry
- Mandarin
- Mathematics
- Further Pure Mathematics
- Accounting
- Business Studies
- Economics
- English
- Psychology

Entry Requirement

A-level study is designed to allow students to pursue subjects, in which they have a particular interest, in much greater depth and breadth. As such, students are encouraged to opt for subjects they have a passion for while bearing in mind that a high level of dedication is necessary. Naturally, a certain level of academic achievement in these subjects is also required for the student to be successful and to enable them to progress on to further university studies.

Students who want to follow the full A-level programme should usually have an average B grade profile, based on performance in the mock IGCSE examinations, with at least an IGCSE Grade B in the subjects to be pursued at A-level, unless otherwise specified. Generally, for students with an average C grade profile, we will discuss together and work out the best path for them to take.



STUDENT ACHIEVEMENTS

Gold in the Floor Exercise, Balance Beam, Uneven Bars, and Vault, (Women's U18 Overall Champion) in MSSWPKL 2025
MARISSA ZAIFUL AZIAN

Outstanding Cambridge Learner Award Top in the World for Foreign Language Mandarin Chinese (June 2025)
GUO ZIHAN & XU JINYE

9th Asian Goju-ryu Karate Championship in Colombo, Sri Lanka (Gold)
HEMANTH KARTHICK

International Federation of Aesthetic Group Gymnastics (IFAAG) World Cup Finals
Dato' Malik Cup (Junior Category) - Silver
Malaysian Aesthetic Group Gymnastics Cup (Junior Category) - Bronze
MYRAH JOSEP

Malaysia National Ice Skating Competition (Silver)
HARUHI SAKAMOTO

Facilities

- Swimming Pool
- Football Field (synthetic sports turf)
- Basketball Courts/Multipurpose Courts
- Sciences Labs (Biology, Physics & Chemistry)
- ICT Labs
- Library
- Music Rooms
- Playground
- ECA Rooms
- Multipurpose Hall

Enrichment Classes

- Accelerated English Program (AEP)
- English as a Second Language (ESL)
- Foreign Languages
- Music Lessons
- Afterschool Care Program
- IELTS
- Hanyu Shuiping Kaoshi (HSK)
- Holiday Program
- Trial Classes
- Sayfol Swimming Academy
- Sayfol Football Academy
